BAM PRODUCT

A small line of Sherwood products has been selected exclusively for Brick & Mortar Retailers, identified as BAM (Brick and Mortar) Products. These BAM products can only be sold through Authorized Dealers and only in their physical retail locations. These BAM products may not be sold or advertised digitally.

PRODUCT VIDEO AVAILABLE- ON YOUTUBE

Product knowledge video is available on our YouTube Channel. These videos are available to consumers, staff and are great informational pieces for our highlighted products. With videos periodically being added, we are continuing to grow our video library. You can find our channel at: <https://www.youtube.com/channel/UCxbFacLbT5rkG7gFGzYuQPA>

PERFECT FOR RENTAL

Items that will fit perfectly into your rental line-up. Economic, hardy and great for everyone.

SHERWOOD BEST SELLER

We've gone through our lineup, and although we love all our products, we have highlighted a few of our bestsellers. These products have either become classic favorites or are new top choices.

PACKAGE PROMOTION

WHEN YOU PURCHASE THESE FOUR HARD GOOD ITEMS, YOU WILL RECEIVE DISCOUNTED WHOLESALE AND MAP PRICING

OPEN WATER PACKAGE

- ▶ Any CQR-3 or CQR-4 BCD
- ▶ Magnum Pro Regulator
- ▶ Standard Octo
- ▶ Logic Two Gauge Console

DIVE MASTER PACKAGE

- ▶ Any CQR-3 or CQR-4 BCD
- ▶ Oasis Pro or Blizzard Pro Regulator
- ▶ Gemini Inflator
- ▶ Wisdom 3

PROFESSIONAL PACKAGE

- ▶ Crux BCD
- ▶ SR² Regulator
- ▶ SR² Octo
- ▶ Beacon

OUR COMMITMENT TO STAYING blue

CONTINUING METHODS

At Sherwood Scuba, we are continuing our commitment to use sustainable packaging alternatives on all of our products whenever and wherever possible. We have gone through extensive efforts to find sustainable alternatives and continue to evaluate our methods and align them more closely with eco-conscious best practices. As passionate divers and explorers, the health of our oceans and our environment are not just a priority, but a necessity.

TAKING ACTION

Sherwood Scuba believes in working together to take on the biggest issues facing our oceans, while encouraging each and every diver to be conservation-minded. Sherwood Scuba Marine Conservation is proudly supporting non-profits across the world and partaking in science based expeditions to prevent an environmental calamity from happening. We have partnered with organizations that share these ideals, including Pelagios Kakunja, Fins Attached, and CREMA.

RESPONSIBLE PACKAGING

We are continuously working to protect our environment through our Responsible Packaging program, which is tasked with reducing the use of plastics in our product packaging. These are some of the steps we have taken to reduce our plastic use:

- Masks are packaged in protective boxes that can also be used for transport and storage of accessories.
- Regulators, computers, gauges and instrumentation are shipped in recycled cardboard boxes.
- BCDs are now shipped in biodegradable & compostable plastic bags. We hope these bags can be utilized and reused for many uses before composting it - whether for storage, clean-up or to hold organic materials.

Other accessories are already being shipped on recycled key cards. Innovative packaging solutions for other products are being implemented.

Humans have always been enticed to explore. To venture into the deepest forest, to hike the highest mountain and to cross the driest desert. It is only recently, on an anthropological scale, that we started journeying deeper in the water. Almost three quarters of our earth is covered by oceans, and scuba diving holds the key to unlock these doors for the majority of individuals. All of our first regulator breaths in a natural environment were made with an anticipation to eventually swim with either dolphins, whales, sharks etc. We are now in the midst of what scientists call the 6th major biodiversity extinction in earth's history, all propelled by the detrimental actions of people. No other environment is more affected than the oceans. From taking biopsies of the most endangered sharks in the world at Malpelo Island with Fins Attached, tagging Blacktip sharks in the remote National Park of Cabo Pulmo with Pelagios Kakunja, to observing the majestic great hammerhead shark with the Bimini Shark Lab. Sherwood Scuba Marine Conservation is proudly supporting non-profits across the world and partaking in science based expeditions to prevent an environmental calamity from happening. We wish to assist at the major task that is upon us, which is to leave an ocean full of life and abundance for our future generations.

KEN KIEFER

AWARD-WINNING UNDERWATER PHOTOGRAPHER

"I'm very impressed with the updated style and functionality of my Sherwood gear. I love the look and comfort, and having the technology and form to match is a winning combination. I'm proud to represent Sherwood and enjoy showing off the gear."

KIMBER KIEFER

UNDERWATER MODEL & DIVER

Diving alongside Ken Kiefer, Kimber continues to push the boundaries of an underwater model. "If you're doing what you love, everything in the universe will gravitate towards you. Proud to be part of the Sherwood Scuba team...they treat us like family!"

KIM NESBITT

PHOTOGRAPHER, DIVER & BIOLOGIST WITH NATIONAL GEOGRAPHIC

"Working in places like Southeast Alaska, British Columbia, & Baja California, I dive and film the underwater critters. Through photography, I'm able to inspire the people to conserve the world's last wild places."

BRITNEY OULLETTE

FREE DIVER

Currently living in Grand Cayman, where she works on a coral nursery and teaches both scuba and apnea diving. She hopes that by teaching people to dive, they too will become passionate about marine conservation and preserving the underwater world.

JASON BORKLAND

SHARK ACTIVIST & UNDERWATER VIDEOGRAPHER

Jason Borkland is a shark activist as well as videographer. Protection of our oceans is his passion, diving with his mentor Randall Arauz in Costa Rica he learned to tag and biopsy sharks and rays. Diving in many challenging places around the world, he is truly at peace under the waterline.

CARLOS RODRIGUEZ

UNDERWATER PHOTOGRAPHER

His evolution from diver to photographer was initiated by the need to capture the wonders of the underwater world and takes advantage of the astonishment that the image produces to educate and showcase the immense diversity that exists under the water.

DR. MAURICIO HOYOS

DIRECTOR/CO-FOUNDER OF PELAGIOS KAKUNJA, AND MARINE BIOLOGIST

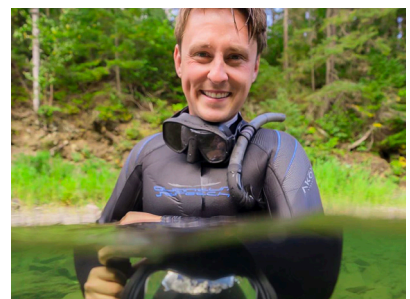

A paragon of shark conservation throughout the years. Golden diver award recipient in 2016, Dr. Hoyos has been featured often on Shark Week, where his passion and expertise of the Great White Shark has been demonstrated.

RANDALL ARAUZ

SEA TURTLE & SHARK ACTIVIST AND RESEARCHER

Dedicating his life to the protection of our oceans, he was awarded the Goldman Environmental Prize in 2010. Randall is currently involved with CREMA (Rescue Center for Endangered Marine Species) in Costa Rica and Fins Attached based out of Colorado.

THOMAS LESZKIEWICZ

CO-FOUNDER/DIRECTOR OF SSMC

As a co-founding Director of Sherwood Scuba Marine Conservation and an associate research director with ORS (Saint-Lawrence Shark Observatory), Thomas specializes in sharks. Has been involved in conservation projects all over the world, from the warm waters of the Pacific to the cold waterways of Quebec.

SHERWOOD
SCUBA
MARINE
CONSERVATION

CONSCIOUSLY CREATED USING OUR 6 ECO FRIENDLY TECHNOLOGIES

DOPE-DYED
YARN

Dope-Dyed Yarn is used to add color before yarn extrusion which means the traditional dyeing process can be skipped, saving energy and water.

RECYCLED
POLYESTER

The wetsuit's polyester lining is created using recycled plastic bottles.

ECO CARBON
BLACK

The "Carbon Black" coloring is created from old car tires. The tires are shredded and transformed into a powdered carbon black.

MATERIAL
RECYCLING

Our neoprene sheets are created by recycling scrap material from previous sheets.

LIMESTONE
NEOPRENE

Our earth-friendly neoprene uses limestone that is over 99.7% calcium and does not rely on oil as extensively as petroleum-based neoprene.

WATER-BASED
GLUE

Water based glue is used instead of traditional solvent based glues, eliminating harmful Volatile Organic Compounds (VOCs).

Men's
5MM Wetsuit

5MM BACK ZIP WETSUIT

SHERWOOD SCUBA MARINE CONSERVATION
MCWS258-XX & MCMS258-XX

The Sherwood Scuba Marine Conservation wetsuits are a perfect way for you to show your support of taking care of the ocean environment. Made from the highest-grade of Quantum Stretch 5mm neoprene available each wetsuit has distinctive graphic designs for women and men. Specific details in sizing and fit have also been taken into consideration for each gender for all day comfort. Join the Sherwood crew and help support the continued care for the world's oceans.

- Quantum Stretch material
- Glued and blind stitched
- Abrasion-resistant kneepads
- Back zipper with long pull cord

A portion of the proceeds from every Sherwood Scuba Marine Conservation Wetsuit helps fund these projects.

Women's available in sizes: 05, 07, 09, 11, 13, 15

Men's available in sizes: SM, MD, ML, LG, XL, 2XL, 3XL, 4XL, 5XL

Follow Us!

To see how we're helping to conserve our oceans & the animals in them!

REGULATOR

REGULATOR TECHNOLOGIES

3PL

THREE PIN LINK

In the mid 2000's, Sherwood Scuba created an ingenious depth compensation concept. Using the combination of a flat flexible membrane, a metal plate, and an internal solid mechanical link to transfer external pressure, the SR² became the first ever flow-through piston regulator that resolved all the issues from its predecessors. With the addition of the 3PL, Sherwood Scuba's SR² is unique; it is a flow-through piston system that is both Sealed & Dry, AND it is not messy to work on.

MRV

MOISTURE RETENTION VANES

The Oasis Pro model features the Sherwood exclusive dual Moisture Retention Vanes "MRVs" that capture moisture from the diver's exhalation. During the inhalation part of the breathing cycle, the same humidity is placed back in the inhaled air, considerably reducing the diver's dry mouth sensation during the dive.

A2-DC

AIR-ASSISTED DEPTH COMPENSATION TECH

The Sherwood 9000 Series 1st Stage is another "anomaly" on the market today. It is the only flow-by piston system in the world that features an ingenious design that uses inner pneumatic force to compensate for depth while keeping the internals environmentally sealed and dry.

As the diver goes deeper, a flexible membrane connected to a metal plate actuates over a valve. This releases internal pressure that travels to the piston flange, positioning the mechanism so the air supply is consistent throughout the dive regardless of depth.

OTPA

ONE TOUCH PERFORMANCE ADJUSTMENT

The One Touch Performance Adjustment is a clever system capable of controlling two functions at the same time: The Venturi Effect and Breathing Resistance.

At the surface, to prevent free flow, the diver can rotate the OTPA clockwise to divert the air flow, decreasing the venturi effect and slightly increasing the breathing resistance. This translates to a very stable 2nd stage after the diver jumps in the water and greatly reduces the free flow opportunity. As the dive progresses, the diver now can rotate the OTPA counterclockwise to obtain the best and smoothest breathing resistance with a direct flow as the venturi effect increases.

OPP

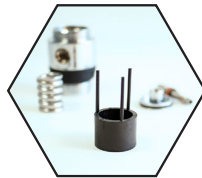

OPPOSITE PIVOTING POINT

OPP is a design that positions the demand lever at the far end of the valve body, contrary to all other valve body designs currently used in 2nd stages. In general, this design provides much better leverage during inhalation, reducing the breathing effort. When used in the Blizzard Pro, while in extreme conditions, this valve body design reduces the freezing opportunity to an absolute minimum. This concept has proven to be one of the best ice diving technologies out there.

SSFC

SEAT SAVING FLOATING CROWN

The SSFC is another brilliant engineering solution that prevents premature wear over the LP seat when the sharp edge of a crown pushes in. Sherwood's exclusive SSFC design does not exert constant pressure over the LP seat when the regulator gets depressurized and is not in use. Other regulators on the market use a threadable crown or orifice that seats in one position permanently causing a constant force over the LP seat, sometimes marking it to the point it is no longer effective.

SR²

FIRST STAGE

The SR² is the ONLY Flow Through Piston Regulator that is both environmentally sealed and internally dry, and still offers a depth compensation mechanism. This is no easy task to achieve. Sherwood's Three Pin Link (3PL) transfers the environmental pressure to the piston and provides consistent flow at any depth.

- ▶ Five LP Ports on a 360 swivel
- ▶ Two HP Ports
- ▶ Two-Piece Piston for precise optimum balance and intermediate pressure control
- ▶ **Three Pin Link (3PL)**

SR²

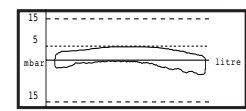

REGULATOR SET

The SR² offers superior breathing performance which only few regulators achieve: less than 0.65 joules/liter of WOB* at 50 msw (165 fsw), & 62.5 l/min RMV*.

The SR² is the ONLY Flow Through Piston Regulator that is both environmentally sealed and internally dry, and still offers a depth compensation mechanism. This is no easy task to achieve. Sherwood's Three Pin Link (3PL) transfers the environmental pressure to the piston and provides consistent flow at any depth.

SR² 2ND STAGE

- ▶ **Seat Saving Floating Crown (SSFC)** - Extends seat life while not in use
- ▶ One Touch Performance Adjustment
- ▶ Pneumatically Balanced 2nd Stage

Average WOB less than 0.65 J/L
RMV = 62.5 l/min.
Depth = 50 m
Service pressure = 50 bar

*WOB = Work Of Breathing
*RMV = Respiratory Minute Value

PART NUMBER

1000-PK Service Kit

The Sherwood Scuba SR² dry first stage and high performance 2nd stage have been laboratory tested in temperatures of 39°F (4°C). Please use Ice Diving techniques when diving colder waters.

In 2022 Sherwood SR² passed the EU & UK cold water requirements under regulation 2016/425 & Standard 250:2014. Sherwood SR² is suitable for use in water temperatures as low as 4°C (39°F).

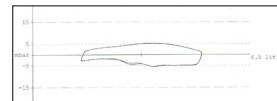

MAXIMUS PRO

REGULATOR SET

Upgraded in 2023 with the SR² 1st Stage, the Maximus Pro with the SR² Valve Body Design is the pinnacle of performance and comfort. The SR² 1st Stage regulator is the only Flow Through Piston regulator that is both environmentally sealed and internally dry, and still offers a depth compensation mechanism. Sherwood's Three Pin Link (3PL) transfers the environmental pressure to the piston and provides consistent flow at any depth.

MAXIMUS 2ND STAGE

- ▶ **Seat Saving Floating Crown (SSFC)** - Extends seat life while not in use
- ▶ One Touch Performance Adjustment
- ▶ Under Arm Hose Swivel with extended 42" Hose
- ▶ Free Parts for Life (Restrictions Apply)

Average WOB less than 0.75 J/L
 RMV = 62.5 l/min.
 Depth = 50 m
 Service pressure = 50 bar

*WOB = Work Of Breathing
 *RMV = Respiratory Minute Value

PART NUMBER

This regulator is suitable for water temperatures warmer than 39°F (4°C).

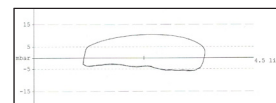

BLIZZARD PRO

REGULATOR SET

The Blizzard Pro had been the standard for cold water divers for the last 30 years. Public Service Dive Teams around the country and in parts of the world use it because of its reliability at low water temperatures and for its ruggedness. The 9000 Series 1st Stage is a unique and patented design featuring Sherwood's **Air-Assisted Depth-Compensation (A2-DC) Technology**. **A2-DC** responds to ambient pressure changes and uses internal pneumatic force to compensate the chamber. The results are an environmentally sealed and dry 1st Stage that is very responsive to external changing pressures. The Blizzard Pro 2nd Stage features **Opposite Pivoting Point (OPP)**.

BLIZZARD PRO 2ND STAGE

- ▶ **OPP** Demand Lever reverses the pivot point to the opposite end of the valve body reducing freezing opportunities
- ▶ Stiffer Exhaust Valve minimizes water intake throughout the breathing cycle drastically reducing in-housing ice formation
- ▶ Injection molded thermoplastic LP seat; harder than silicone, which maintains its shape for longer periods of time
- ▶ *Free Parts for Life (Restrictions Apply)

Average WOB less than 1.28 J/L
 RMV = 62.5 l/min.
 Depth = 50 m
 Service pressure = 50 bar

*WOB = Work Of Breathing
 *RMV = Respiratory Minute Value

OASIS PRO

REGULATOR SET

The Oasis Pro is recognized for its unique feature: the **Moisture Retention Vanes (MRV)** System. The Oasis Pro is Sherwood's best moisture retention system to date. The **MRV** provides the diver with moisture during inhalation without impacting the breathing performance. The 9000 Series 1st Stage is a unique and patented design featuring Sherwood's **Air-Assisted Depth-Compensation (A2-DC)** Technology. **A2-DC** responds to ambient pressure changes and uses internal pneumatic force to compensate the chamber. The results are an environmentally sealed and dry 1st Stage that is very responsive to external changing pressures.

OASIS PRO 2ND STAGE

- ▶ The **MRV**, dual Vane System uses two similarly shaped vanes. The moisture is captured between the two vanes and upon inhalation the moisture returns to the diver.
- ▶ Free Parts for Life (Restrictions Apply)

Average WOB less than 0.87 J/L
 RMV = 62.5 l/min.
 Depth = 50 m

MAGNUM PRO

REGULATOR SET

The Magnum Pro's Balanced Valve Body provides outstanding breathing performance typically found in more expensive regulators. The 9000 Series 1st Stage is a unique and patented design featuring Sherwood's **Air-Assisted Depth-Compensation (A2-DC)** Technology. **A2-DC** responds to ambient pressure changes and uses internal pneumatic force to compensate the chamber. The results are an environmentally sealed and dry 1st Stage that is very responsive to external changing pressures.

MAGNUM PRO 2ND STAGE

- ▶ Single Tube Balanced Valve Body giving the Magnum Pro incredible breathing performance
- ▶ Diver operated Venturi control switch provides air flow adjustments while at the surface and at depth
- ▶ Resilient thermoplastic LP seat
- ▶ Free Parts for Life (Restrictions Apply)

Average WOB less than 0.98 J/L

BRUT PRO

REGULATOR SET

The Brut Pro is dedicated to rugged reliability combined with ease of maintenance. The Brut Pro continues to be the overwhelming favorite for rental applications around the world, featuring balanced 1st and 2nd stages. The 9000 Series 1st Stage is a unique and patented design featuring Sherwood's **Air-Assisted Depth-Compensation (A2-DC)** Technology. **A2-DC** responds to ambient pressure changes and uses internal pneumatic force to compensate the chamber. The results are an environmentally sealed and dry 1st Stage that is very responsive to external changing pressures.

BRUT PRO 2ND STAGE

- ▶ The ONLY Pneumatically Balanced Valve Body in a rental / entry level regulator
- ▶ Single Tube Balanced Valve Body provides improved reliability and performance
- ▶ Free Parts for Life (Restrictions Apply)

Average WOB less than 1.12 J/L

GEMINI OCTO

BREATHABLE INFLATOR

The Sherwood Gemini gives you exceptional breathing performance without any in-water adjustments required. The Gemini replaces the conventional BC power inflator and backup second stage regulator. With this two-in-one breathing device, an extra hose is eliminated, giving you a less cumbersome dive. The power inflation, oral inflation, and exhaust trim valve are designed to remain similar to standard BC inflators, so you are already familiar with the Gemini's operating system.

- ▶ Connects to the first stage, giving you both regulator and inflator operations
- ▶ High flow capacity hose that quickly connects your BC and inflator together
- ▶ Ergonomically designed inflator & deflator buttons
- ▶ Free Parts for Life. (Restrictions apply)
- ▶ Available in yellow, blue and white

PART NUMBER

SR9200XX Gemini Octo

9000-PK Service Kit

This octopus is suitable for water temperatures warmer than 50°F (10°C).

SR² OCTO

PRO-LEVEL OCTOPUS

The same technology, premium materials, and extraordinary breathing characteristics found in our SR² Regulator is also available in the SR² Octopus. The SR² Octo is distinguished from the SR² by its highly visible yellow accented front cover and yellow hose. The same single knob performance adjustment and seat saving floating crown are the features that help the SR² Octo stand apart from other High End Octos.

SR² OCTO

- ▶ SSFC Seat Saving Floating Crown
- ▶ One Touch Performance Adjustment
- ▶ Pneumatically Balanced Valve Body
- ▶ Hi-Vis Yellow 36" Hose
- ▶ Free Parts for Life (Restrictions Apply)

PART NUMBER

SR2002 SR2 Octo

9952-PK Service Kit

The Sherwood Scuba SR² Octo has been laboratory tested in temperatures of 39°F (4°C). If diving in waters colder than 39°F (4°C) ensure the 1st stage used is set at the lowest value of the IP range as a precaution.

PERFECT FOR RENTAL

SHERWOOD OCTO

ENTRY-LEVEL OCTOPUS

Designed to provide outstanding breathing performance and reliability. The Pneumatic Balanced Valve Body provides unusually good breathing performance for a rental regulator, improving the experience for novice divers everywhere. The Sherwood Octo has been the overwhelming favorite for rental applications for decades because of its simple reliability and ease of maintenance.

SHERWOOD OCTOPUS

- ▶ The ONLY Pneumatically Balanced Valve Body in a rental / entry level regulator
- ▶ Single Tube Balanced Valve Body provides improved reliability and performance
- ▶ Hi-Vis Yellow 36" Hose
- ▶ Free Parts for Life (Restrictions Apply)

PART NUMBER

CRUX

MODULAR BCD

The Sherwood Crux is a BCD designed with the diver in mind; the sizing is practically infinite and it's packed with features. Dive light weight and streamlined in warmer waters or add additional trim weight pockets and dive in colder waters. This modular BCD is easy to disassemble and assemble to pack small for travel. The fit, form, and function are unlike any BC on the market today.

- ▶ **MARS** (Micro-Adjust Retention System) Easy to adjust shoulder and waist straps provide a custom fit to any diver for any condition.
- ▶ Features you want. All options are customizable and can be added or removed based on your needs.
- ▶ 3D Air-Cell Back-Inflation. Unique air cell provides 40 and 50 lbs. of lift without big and bulky wings.
- ▶ Ditchable and non-releasing trim weight pockets
- ▶ System ready for AKONA Pro Kits and Quick Clips.

ADDITIONAL SIZING INFORMATION

In the sizing of the Crux BCD, Height and Weight are useful to get close to the correct size BCD. In order to insure a proper custom fit, using Torso Length, Waist Circumference and Over the Shoulder Torso Length measurement will provide the extra details needed to make sure you get the proper size harness and strap set combination.

TORSO: Measure from your neckline on your back to your waist, this is your Torso Length.

WAIST CIRCUMFERENCE: Measure your waist circumference.

OVER THE SHOULDER TORSO: Measure from your waist on your stomach over your shoulder on the same side of your body to your waistline on you back.

SIZE	CONFIGURATION	Height (ft / m)	Weight (lbs / kg)	Torso Length (in / cm)	Over the Shoulder Length (in / cm)	Waist Circumference (in / cm)
SM	Small Harness with Short Adjustable Straps*	4'8 - 6'0 / 1.40 - 1.80	90 - 190 / 40 - 86	Up to 19 / 48	34 - 50 / 86 - 127	28 - 50 / 71 - 127
MD	Small Harness with Long Adjustable Straps*	5'0 - 6'2 / 1.50 - 1.90	100 - 210 / 45 - 95	Up to 19 / 48	40 - 50 / 102 - 127	32 - 56 / 81 - 142
LG	Large Harness with Short Adjustable Straps*	5'6 - 6'5 / 1.70 - 2.00	120 - 240 / 54 - 109	19 / 48 and up	34 - 56 / 86 - 142	31 - 54 / 79 - 137
XL	Large Harness with Long Adjustable Straps*	6'2 - 7'0 / 2.00 - 2.40	175 - 280 / 79 - 127	19 / 48 and up	38 - 56 / 97 - 142	33 - 60 / 84 - 152

REDESIGNED

LUNA

JACKET-STYLE BCD

The 2024 Luna has been updated in both form and function. The **NEW** CQR-4 weight integration system, increased lift and lowered tank strap provides additional diving performance specific to the woman diver's needs. The lower cut pockets and strap adjustments create a more comfortable fit and streamlined, stylish look.

- ▶ 3D air cell and elastic sternum strap allow full inflation while eliminating "squeeze."
- ▶ Removable and adjustable sternum strap with 2 attachment positions.
- ▶ Sherwood's Halfpac combines the cushion of a soft-pack with the stability of a hard-pack.
- ▶ Two non-releasing trim weight pockets for stability.
- ▶ Stainless Steel D-Rings.
- ▶ Thick padding and a plush nylon interior.
- ▶ **NEW** Built in Pockets for AKONA BC Pro-Kit and QuickClip.

JACKET-STYLE BCD

This jacket-style BCD wraps air completely around you for easy flotation. When fully inflated, the 3-D air cell and the suspension strap system combine to create a stable and secure fit that is designed to eliminate squeeze. The **NEW** CQR-4 weight integration system gives your weight pockets a more secure fit and are easier to install and remove. Balanced for a comfortable swimming body position.

- ▶ 3-D designed air cell that wraps around the body for exceptional stability.
- ▶ Removable and adjustable sternum strap.
- ▶ Four-point air release valves for optimum buoyancy control.
- ▶ Two non-releasing trim weight pockets for enhanced stability.

BACK INFLATE BCD

The Sherwood Axis BCD has undergone a makeover, maintaining its comfortable fit and incredible function, just with a fresh appearance. Sherwood's Three Point Harness (3PH) allows additional micro adjustments to the waistband, shoulder straps, and cummerbund that all provide the diver with a comfortable fit and a stable BCD. The Axis pulls the scuba cylinder right up against the small of your back and eliminates all tank shifting. The **NEW** CQR-4 weight integration system gives your weight pockets a more secure fit and are easier to install and remove.

- ▶ 3PH Three Point Harness
- ▶ Improved Pocket Design
- ▶ Delrin zippers and pulls
- ▶ Integrated and Adjustable Cummerbund
- ▶ Waistbands support the Weight Integration

BRICK & MORTAR

WE SUPPORT DIVE RETAILERS!

Sherwood Scuba recognizes the need for Brick and Mortar Retailers in the dive industry. We are continually exploring ways to help provide healthy profitability to dive stores to help keep the sport of diving alive.

We have designed a small product line of Sherwood Scuba products that are exclusive to Brick & Mortar Retailers, identified as BAM (Brick and Mortar) Products.

Sherwood Scuba's BAM products can only be sold through physical retail location of Sherwood Scuba Authorized Dealers. There are no ecommerce sales of these products including; internet stores or ecommerce sites such as Amazon or eBay.

ICONOGRAPHY

BCD ICON LEGEND

CQR-4 WEIGHT SYSTEM

The CQR-4 Weight System has been updated with a new zipper placement to provide an even more secure fit. The ergonomic handles and buckles have also been adjusted for an easier install and removal of ditchable weights.

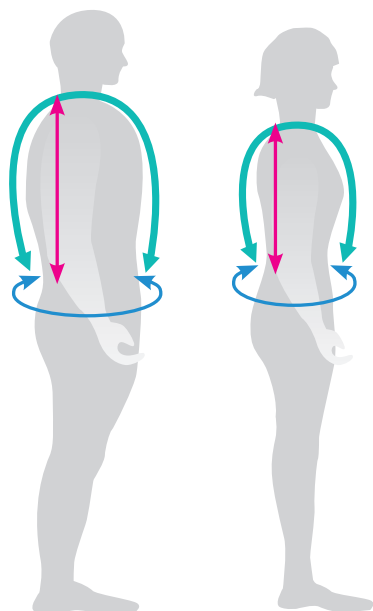

PRO-KIT READY

All Sherwood BCDs, are specifically designed to accept AKONA ProKits. Add a Flashlight with Retractor, Console Retractor, and Knife or Line Cutter without making any modifications to the BCD.

GEMINI READY

All Sherwood BCDs come standard with the Sherwood Inflator. Sherwood BCDs can upgrade to the Gemini Breathable Inflator. The Gemini functions as the BCDs inflator and the diver's Octopus all in one second stage.

BEACON

FULL COLOR DIVE COMPUTER

Simple, Easy, Functional. New Divers will appreciate the Beacon's simplicity. Straightforward menu and easy to navigate operating system is a breeze to learn. All divers will appreciate the compact design and easy to read color screen. The Beacon's advanced Thin-Film Transistor or TFT color screen provides outstanding color contrast in direct sunlight. The Bluetooth integration to DiverLog+ provides wireless connectivity to your dive log.

- ▶ Ultra-bright high-contrast full color (TFT Display)
- ▶ Easy to use interface with intuitive menu structure & 3 button nav
- ▶ Audible alarms and visual color-changing segments provide cautions
- ▶ Patented Gas Time Remaining Algorithm provides calculations in real time
- ▶ Easy to read Full Tilt digital compass
- ▶ Multiple gases: 3 nitrox gases; each with individual P02 set points
- ▶ Safety Stop and Deep Stop countdown timers (min:sec)
- ▶ Automatic altitude adjustment ensures an accurate profile
- ▶ Bluetooth data transfer using your smart phone or tablet to the DiverLog+ App.
- ▶ Three operating modes (Air, Nitrox, & Gauge)

WISDOM 4

DIGITAL COMPUTER

The Wisdom 4 continues the tradition of the Sherwood Scuba Wisdom computer brand, now in its 4th edition! The Wisdom 4 is our BAM Computer. The most significant difference between the Wisdom 3 and 4 is Bluetooth integration to DiverLog+; with the 4, there is no need for a connecting cable to your laptop or desktop. Just a simple sync between your phone and the Wisdom 4, you can upload all your settings into the Wisdom 4 or download all your dives to the DiverLog+ App.

- ▶ Easy-to-read large digital display
- ▶ Diver-selectable alarms
- ▶ Deep Stop reminders
- ▶ Air, Nitrox or Gauge modes

*DiverLog+ app is available for free but must be downloaded on the App Store, Google Play or from ediverlog.com

LOGIC

PUCK-STYLE COMPUTER

The NEW Sherwood Logic puck-style dive computer has been specifically designed to cater to entry-level divers, the rental market, and also serves as a backup computer. It offers a comprehensive range of features, including a user-friendly and easily readable display, as well as intuitive navigation facilitated by its two control buttons. With its Buhlmann decompression algorithm, the computer accurately calculates, updates, and displays the No Decompression Limit throughout your dive.

- ▶ Air, Nitrox or Gauge Operating Modes
- ▶ Altitude and Temperature Indication
- ▶ Audible and Visual Alarms – Diver Selectable
- ▶ Depth Alarm
- ▶ Imperial and Metric Settings
- ▶ Sample Rate Recording 15s, 30s, 45s, and 60s
- ▶ Deep Stop Reminder – Conforms to Recommended depth for dives exceeding 80 ft / 24m
- ▶ Digital and Bar Graph Indicators for Nitrogen, Oxygen Limits and Ascent Rate
- ▶ Backlight
- ▶ Wireless Sync and Downloadable to App
- ▶ Replaceable CR2450 Battery

MASKS, SNORKELS & FINS

MIMIC

SINGLE LENS MASK MA10

Experience the NEW Sherwood Mimic, a cutting-edge mask featuring a wide view single lens design that ensures an expansive field of vision. With its low volume and superior comfort, this mask provides an exceptional fit for all divers. Customize your look with ease using the seven color frame inserts, allowing you to match your gear, express your favorite color, or reflect your mood. Choose between two silicone skirt colors, black or clear, to suit your preference.

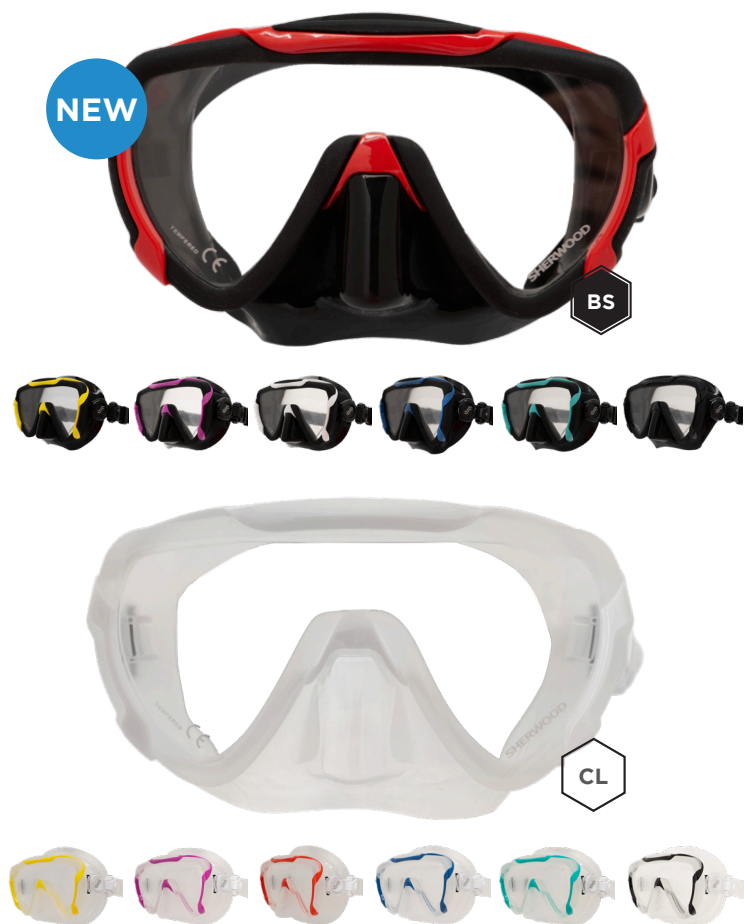

- ▶ Wide View Single Lens Mask
- ▶ Silicone Skirt and Strap
- ▶ Easy Adjust Strap
- ▶ Quick Connect and Disconnect Swivel Buckles
- ▶ Color Change Frame Insert
- ▶ Designed to fit Medium size faces

Included Frame Colors with each Mask Purchase:

Clear Silicone Mask comes with white frame installed
Black Silicone Mask comes with red frame installed

MIMIC SLIM

SINGLE LENS MASK MA11

Introducing the NEW Sherwood Mimic Slim, a version of the Mimic designed specifically for smaller faces. With its wide view single lens design, low volume, and comfortable fit, this mask offers the same exceptional features as its counterpart. Enhance your style with the seven color frame inserts, effortlessly interchangeable to complement your gear, favorite color, or mood. Choose between the sleek black or clear silicone skirt options.

- ▶ Wide View Single Lens Mask
- ▶ Silicone Skirt and Strap
- ▶ Easy Adjust Strap
- ▶ Quick Connect and Disconnect Swivel Buckles
- ▶ Color Change Frame Insert
- ▶ Designed to fit Small size faces

Included Frame Colors with each

Clear Silicone Mask comes with white frame installed
Black Silicone Mask comes with red frame installed

Additional Colors:

SCOPE

FRAMELESS MASK MA47

Designed with comfort in mind. The "Ski Goggle" style elastic strap will make you forget you're wearing a mask at all. The soft silicone skirt provides a comfortable, tight seal. The unique shape makes clearing a breeze.

- ▶ Unique frameless mask
- ▶ Single adjustment
- ▶ Wide & unobstructed field of view
- ▶ Tempered glass lens
- ▶ Tug-free comfort strap
- ▶ Available Colors: Black Silicone, Black, Tiffany

EMS47-STRAP
Elastic Strap

Additional Colors:

SCOPE SLIM

FRAMELESS MASK MA01

Designed with comfort in mind for a narrow face. The "Ski Goggle" style elastic strap will make you forget you're wearing a mask at all. The soft silicone skirt provides a comfortable, tight seal. The unique shape makes clearing a breeze.

- ▶ Unique frameless mask
- ▶ Single adjustment
- ▶ Wide & unobstructed field of view
- ▶ Tempered glass lens
- ▶ Tug-free comfort strap
- ▶ Available Colors: Tiffany Silicone, Black, Black Silicone, Tiffany

EMS47-STRAP
Elastic Strap

Additional Colors:

MACCO 2

FRAMELESS MASK MA28

The strap system attaches directly to the stable subframe and utilizes Sherwood's Quick Disconnect buckle to evenly distribute contact pressure against the face. The result is unprecedented comfort throughout your dive. Ideal for all types of diving, from tropical to polar.

- ▶ Unique Sub-frame design
- ▶ Wide field of view
- ▶ Tempered glass lens
- ▶ Quick-adjusting buckles
- ▶ Available Colors: Black Silicone, Clear

* MC-9 Replacement Insert Buckle

Additional Colors:

RONA

FRAMELESS MASK MA35

This flared out frameless mask hugs the face for enhanced field of view and a lower volume. Our Quick-Disconnect side buckle pivots seamlessly, reducing stress to the Tempered glass lens. The large, easy-to-grab nose pocket makes equalizing easy and comfortable.

- ▶ Single, wide-view lens
- ▶ Frameless matte silicone
- ▶ Quick Disconnect Buckle
- ▶ Tempered glass lens
- ▶ Double feathered edge soft silicone skirt
- ▶ Larger nose pocket
- ▶ Available Colors: Black Silicone, Clear

* MC-9 Replacement Insert Buckle
* MC-11 Replacement Receiving Buckle

Additional Colors:

VIDA

LOW PROFILE DUAL LENS MA72

The Vida Mask uses the latest in co-molding technologies to provide a mask with unique styling and color configurations. This two teardrop shaped lens mask provides tremendous vision and comfort in addition to the unique design.

- ▶ Low profile & wide view - Fits a wide variety of faces
- ▶ Silicone connected pivot buckle
- ▶ The ergonomic nose pocket provides ease of clearing ears
- ▶ Available Colors: Black/Blue, Black, Steel Blue, Lemon Yellow, Magenta, Tiffany, White

* MC-9 Replacement Insert Buckle
* MC-11 Replacement Receiving Buckle

ONYX ARL

ANTI-REFLECTIVE LENSES MA46BS

With the Onyx ARL mask, we have taken one of our best selling masks, the Onyx, and upgraded the lenses with an Anti-Reflective coating. This permits additional light to pass through the lenses to the diver's eyes. The additional light translates into improved contrast and optical clarity. Typical tempered lenses allow 92% of the light to pass through, Crystal Clear lenses allow 95%, where ARL lenses allow 98% to pass through.

- ▶ Anti-Reflective Lenses
- ▶ Low profile, dual lens design
- ▶ Stealthy matte black finish
- ▶ Push button buckle
- ▶ Available Colors: Black Silicone

* MC-9 Replacement Insert Buckle
* MC-15 Replacement Receiving Buckle

ONYX

LOW PROFILE DUAL LENS MA14BS

The upgraded Sherwood Onyx, now with QD Buckles, remains one of Sherwood's best selling masks. The soft skirt fits mid to narrow faces and is perfect for free diving.

- ▶ Low profile, dual lens design
- ▶ Push button buckle
- ▶ Stealthy matte black finish
- ▶ Tempered glass lens
- ▶ **Optional Corrective Lenses -1.5 to -8.0**
- ▶ Available Colors: Black Silicone

* MC-9 Replacement Insert Buckle
* MC-15 Replacement Receiving Buckle

NEW COLOR ADDED

TARGA

LOW PROFILE DUAL LENS MA63

Comes with QD Buckles, with a low profile double lens mask with tremendous field of vision. The Targa uses a softer silicone than most masks and the textured finish provides extreme comfort. The Targa minimizes the "Mask Face" after a day of diving. The Targa skirt design fits a wide variety of faces.

- ▶ Specifically designed for smaller faces
- ▶ Low profile dual lens design
- ▶ Easy to use push button buckles
- ▶ Tempered lenses
- ▶ **Optional Corrective Lenses -1.5 to -8.0**
- ▶ Available Colors: Topographic, Black, Steel Blue, Magenta, Tiffany, White

* MC-9 Replacement Insert Buckle
* MC-15 Replacement Receiving Buckle

Topographical Pattern Frame and Skirt

Additional Colors:

CRUZ

LOW PROFILE DUAL LENS MA57

This low-profile low-volume mask has a one-piece rigid frame for enhanced stability. The Quick Connect swivel buckles snap directly into the frame for optimal strap connection and position. The textured, supple silicone skirt connects to your face gently for a perfect water seal.

- ▶ Optimized Tear Drop Shaped Lenses for Enhanced View
- ▶ Tempered CE Rated Glass Lenses
- ▶ Micro Silicone Supple Skirt
- ▶ Quick Connect Swivel Buckles
- ▶ Easy Adjust Silicone Strap
- ▶ Available Colors: Blue Reef, Black Reef, Magenta Reef, Tiffany Reef, Electric Reef

* MC-9 Replacement Insert Buckle

Additional Colors:

CETO

FRAMELESS MASK - WITH & WITHOUT COLOR ENHANCED LENSES
MA60

All new colors come with standard tempered lenses.

Tangine lens: offers optical contrast while diving - drastically reducing light wavelength from 400-600 nanometers. This reduces glare and improves optical clarity.

Rubicon lens: adds more optical contrast and make things easier to spot while diving in low light levels or even night diving. Designed to filter out blue wavelengths in the water, allowing your eyes to see the other brilliant colors.

- ▶ Single lens Design
- ▶ Frameless construction
- ▶ Double feathered edge soft silicone skirt
- ▶ Color enhancing single lens on Tangine and Rubicon only
- ▶ Available Colors: White Silicone, Rubicon Lens, Tangine Lens, Black Silicone, Tiffany Silicone, Magenta Silicone, Steel Blue Silicone, Lemon Yellow Silicone

NEW COLORS ADDED

Additional Colors:

* MC-9 Replacement Insert Buckle
* MC-15 Replacement Receiving Buckle

SPECTRUM

LOW PROFILE DUAL LENS
MA95

Each color provides a unique perspective above and below the surface. Mirrored and colored lenses not only provide a new and refreshing look to a standard tempered lens, they also enhance the lens functionality.

Available Colors:

Sunscape - The sunscape lens adds vibrance to your dives. Perfect for warm water diving!

Rubicon - The Rubicon lens adds optical contrast. Perfect for low level light diving.

Platinum - The Platinum lens reduces glare while at the surface, but doesn't impact vision underwater.

Tangine - Drastically reduces light wavelength from 400-600 nanometers. This minimizes UV light entering the mask, reducing glare and improving clarity.

* MC-9 Replacement Insert Buckle * MC-11 Replacement Receiving Buckle

Additional Colors:

Additional Colors:

VANTAGE

CLASSIC DUAL LENS MA22

The Vantage is a modern traditional design that is versatile and utilitarian. This mask fits great on most divers and has the ability to have the standard lenses replaced with prescription lenses. -1.5 to -8.0.

- ▶ Classic Dual lens design
- ▶ QD Buckle
- ▶ Tempered glass lens
- ▶ Optional Corrective Lenses
- ▶ Available Colors: Steel Blue, Black, Black Silicone, Lemon Yellow, Clear

* MC-9 Replacement Insert Buckle
* MC-13 Replacement Receiving Buckle

Additional Colors:

ORACLE +

LOW PROFILE DUAL LENS MA50

For those of you looking for a little extra strength reading when looking at your Computer or Gauge, Sherwood has the mask for you. Sherwood took one of its best selling and best fitting masks and made it even better. Now with +1.75 Positive Diopters. Think of it as bifocal glasses built right into the mask.

- ▶ +1.75 Diopter lenses
- ▶ Low profile, excellent wide & downward views
- ▶ Pivot Buckle/Strap
- ▶ Ergonomic nose pocket
- ▶ Tempered glass lens
- ▶ Available Colors: Lemon Yellow, Black, Black Silicone, Steel Blue

* MC-9 Replacement Insert Buckle
* MC-11 Replacement Receiving Buckle

Additional Colors:

TIGA

DRY SNORKEL SN056

The TIGA Dry Snorkel uses the latest dry snorkel technologies to provide the diver with an easy breathing and most importantly a dry experience. The streamlined base provides a reservoir of space for air to flow freely from the tube to the mouthpiece without restriction. The oversize purge valve allows easy clearing of the snorkel. The 100% liquid silicone mouthpiece and flex tube ensure comfort in every situation.

- ▶ Comes with the Sherwood EZ Bite Mouthpiece
- ▶ Smooth operating dry ball chamber
- ▶ Deep base receptacle captures water
- ▶ Easy to use snorkel keeper
- ▶ Available Colors: White Silicone, Magenta Silicone, Tiffany Silicone, Steel Blue Silicone, Red with Black Silicone, Black, Black Silicone, Steel Blue, Lemon Yellow, Magenta, Tiffany, Clear

CAI

SEMI-DRY SNORKEL SN054

Cai Semi-Dry Snorkel utilizes a newly created shield which acts like a force field against waves, wind, and splashing from entering the snorkel tube.

- ▶ Comes standard with the Sherwood EZ Bite Mouthpiece
- ▶ Semi Dry/Splash Guard Top
- ▶ Large bore tube for large volumes of air
- ▶ Deep base receptacle captures water without impacting breathing experience
- ▶ Easy to use snorkel keeper
- ▶ Available Colors: Tiffany, Magenta, Black, Black Silicone, Steel Blue, Lemon Yellow, Clear

TRITON

OPEN HEEL FIN F3X0XX

Power, performance, and comfort. That is why you use the Triton Fins. The Triton Fins take a traditionally designed power fin to the next level. Utilizing 100% Thermo Plastic Urethane (TPU), the Triton Fins offer more comfort and flexibility than their predecessors. This design provides tremendous power and performance, but reduces the risk of leg or foot cramps.

- ▶ Three vents between the foot pocket and blade provide additional thrust on the down kick and decrease drag on the up kick or recovery
- ▶ Foot pocket shape and size derived from years of research to satisfy the most exacting requirements for comfort and power
- ▶ Fin is positively buoyant and floats
- ▶ Available Colors: Black, Ice Blue, White, Tiffany, Magenta

* BS3000-XX Bungee Heel Strap
** TL & MG Not Available in L/XL

TRITON PRO

OPEN HEEL FIN FN2XO

Essentially identical in its appearance to the Triton, the Triton Pro uses a modified compound that provides a stiffer fin with more snap in the blade. This results in more power and responsiveness. You will find sculling and back kicking easier. Three vents between the foot pocket and blade provide additional thrust on the down kick and decrease drag on the up kick or recovery. The stainless steel strap has been modified with more stretch for comfort and to fit a broader range of foot sizes, without sacrificing stability in the heel.

- ▶ Stainless steel spring heel straps
- ▶ Ergonomic foot pocket shape for comfort and power
- ▶ Engineered stiffer compound in the Triton Pro provides a more powerful kick
- ▶ Vents add thrust while minimizing drag
- ▶ Ribbed design increases power and trust
- ▶ Large heel pull tab - easy donning and doffing
- ▶ Available Colors: Black

 @SherwoodScubaMarineConservation

SO SIMPLE, IT'S INGENIOUS.

Simplified design and technology, that's the Sherwood motto. There are enough overly complex things in life, your diving equipment doesn't need to be one of them. That's why one goes diving, isn't it? To get away from life's complexities. No phones, no text messages, just breathe and explore.

Sherwood's products are designed to be simple to use, operate, service and maintain. Sherwood has a worldwide reputation of designing simplified equipment that is rugged and reliable. Sherwood Scuba's dive products meet the demands of today's diver for simple, comfortable, and high performance equipment.

Over the past 60 years, Sherwood has proven their dedication to the scuba diving industry by delivering consistently superior products, that are simple and ingenious. Sherwood Scuba's relentless endeavor for excellence is fostered by the trust and loyalty of divers worldwide.
